Note: The following work roles exist in DoD 8140 V2.1 but have no published certification options (pending DoD review): (462) Control Systems Security Specialist, (731) Cyber Legal Advisor, (901) Executive Cyber Leader.

DoD 8140 Cybersecurity Workforce Qualification — Personal Certification Path

Governed by DoDM 8140.03 "Cyberspace Workforce Qualification and Management Program" (15 Feb 2023) — https://dodcio.defense.gov/Portals/0/Documents/Library/DoDM-8140-03.pdf. This matrix is compiled from the DoD

Work roles: every IT and cyber-related DoD position is mapped to one or more "work roles" — about 70 roles grouped into 7 workforce elements (Cybersecurity, IT, Cyber Enablers, Cyber Effects, Intelligence, Software Engineering,

Qualification paths: 8140 qualification can be met via one of four "Foundational Qualification" paths — Education, DoD/Military Training, Commercial Training, or Personnel Certification — plus an "Experience" alternative for eligible

Education path: Bachelor's, Master's, or PhD in Information Technology, Cybersecurity, Data Science, Information Systems, Computer Science, or Software Engineering from an ABET-accredited (abet.org) or CAE-designated

DoD / Military Training path: specific military schoolhouse courses listed per work role in the DoD 8140 Training Repository (within the same workbook linked above). Generally not accessible to government civilians or contractors

Commercial Training path: commercial courses approved as 8140 qualification options. Thin option universe; most entries overlap with certifications.

Experience (alternative): available only to government civilians and military personnel. Contractors are NOT eligible for the Experience path.

Compiled by Jeff Krueger. Unaffiliated with any firm, agency, or contracting office. Not legal advice.
